## Return book and reviews

Let the book owner know your intention of returning back the book by a simple touch. Arrange a meeting to do that and please...leave a review to better present the book owner to other users!

# Return book and reviewing

# 6

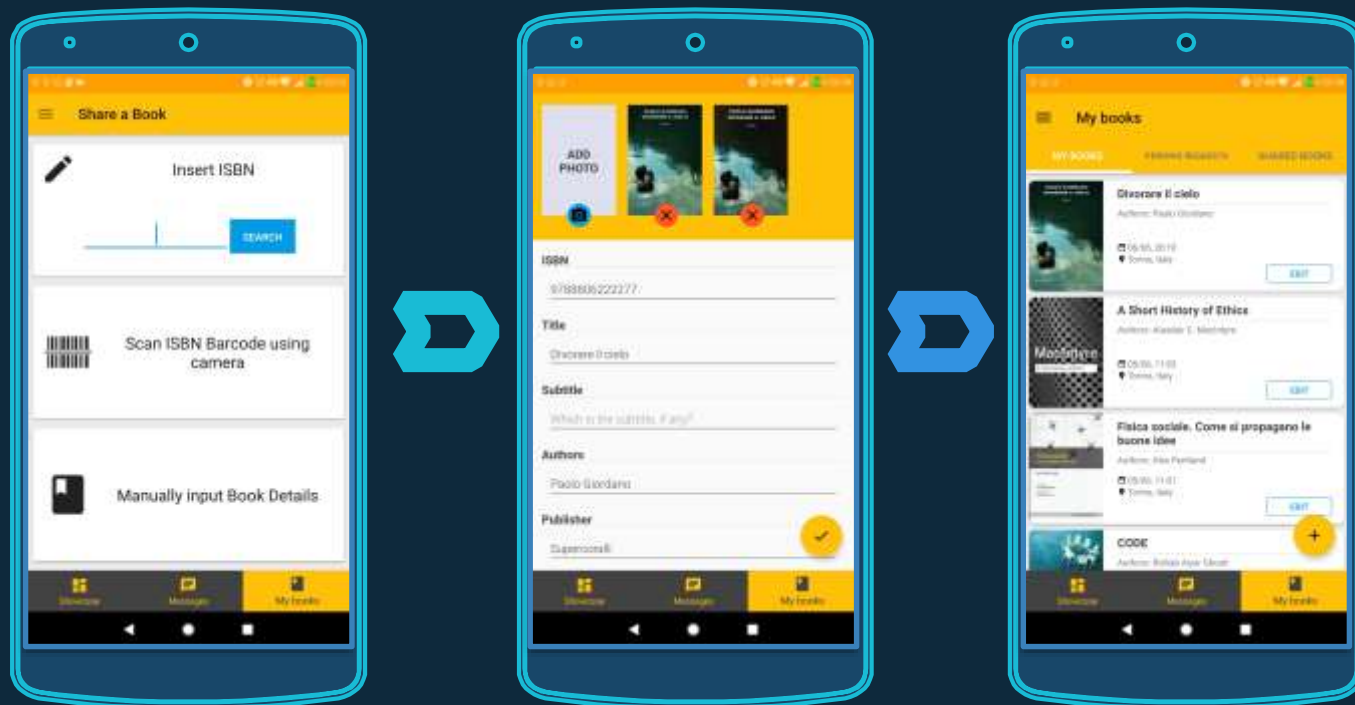

## Make your own announce

Create your own book announce choosing your favorite way!

You will be able to insert book details manually, or being helped by our third party Google API that allows you to retrieve known data inserting or scanning the ISBN. Don't forget to add photos to better represent book conditions!

# New book announcement

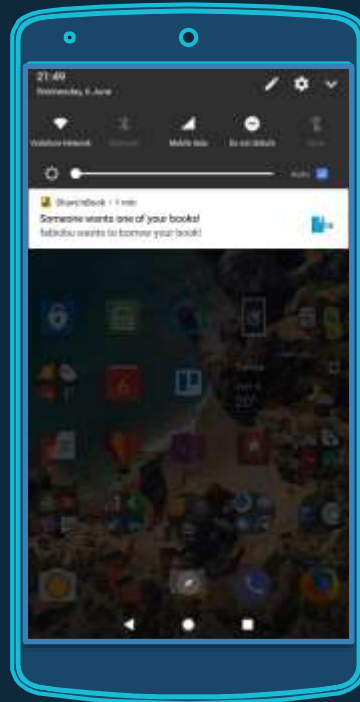

# 7

## Receive and accept/reject borrow requests

You will be notified of each user looking for your books! Then it's up to you deciding if to accept or reject the request. Use the claimant reviews profile history to be helped in your decision!

Receive borrow requests and...decide!

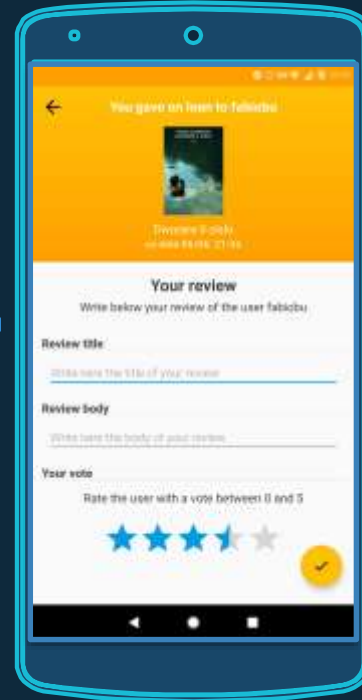

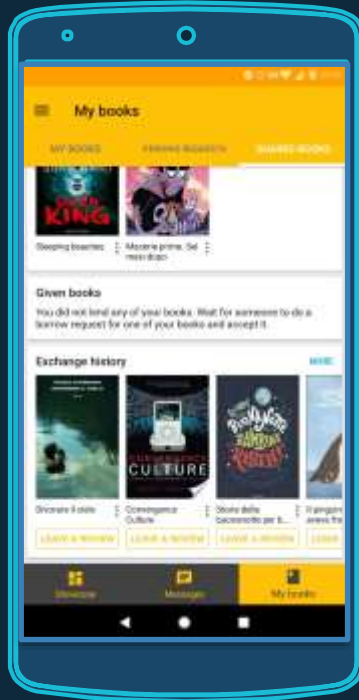

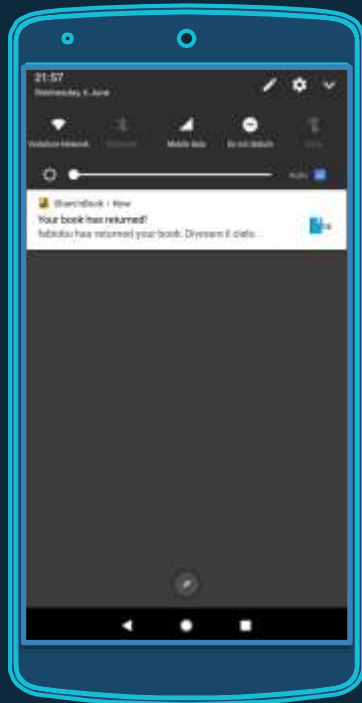

# 8

## Reviewing the user you gave on loan to

A notification about book return will be received as soon as the claimant will notify you. Arrange an appointment to obtain the book back and don't forget to leave a review about him/her in order to better present claimant profiles.
